

Macleod High School Trims Lethbridge

ABSENT — 1867 PEOPLE— WHY?

The school campus was the scene of a very exciting basketball game on Saturday afternoon last between Lethbridge and Macleod. The score of 10-38 was due to the clever combination work of the home team.

The Lethbridge girls, although playing a losing game from the beginning, showed that they knew how to take defeat by giving a rousing cheer for the winners at the close.

The line-up was as follows:

Lethbridge	Macleod
Forwards	
Lily Parry	Velma Kirk, Capt.
Muriel Hyssop	Essie McDonald
Centres	
Lucille Kimet	Annie Davis
Myrtle Ward	Erna Thiel
Guards	
Mary Scott, Capt.	Alice Aikins
Janet Machilvena	Alberta McCrea
Referee—Mr. Wade, Lethbridge.	

Presentations to K. W. Riekie

On Saturday evening the Sunday School teachers and a few other friends, of the Presbyterian Church, lured Mr. K. W. Riekie into the home of Mr. S. A. MacRae, on 20th St., where preparations had been made to spend a social evening. After spending a good time together, Miss Muir, on behalf of the teachers and officers of the school, presented Mr. Riekie with a pair of beautifully engraved cuff links. Mr. Riekie made a suitable reply, expressing his regret at leaving Macleod, and thanking the teachers for their kindly remembrance of him.

On Tuesday afternoon the staff of the Bank of Commerce, headed by Mr. Huntley, the accountant, assembled in Mr. Riekie's office, where Mr. Hill, on behalf of the staff of the Bank, asked Mr. Riekie to accept a small token of their appreciation and good-will. Mr. Huntley referred to the cordial relationship that had at all times existed between the manager and said how sorry they were to lose their chief, and at the same time they wished Mr. Riekie all prosperity and happiness in Lethbridge, and that they trusted to have the pleasure of seeing him in Macleod once and a while.

The gift was in the form of a solid gold Masonic ring, a beautiful example of the jeweler's craft, and which was the work of a local jeweler, Mr. R. W. Russell.

Mr. Riekie, in reply, thanked the members of the staff for the gift, and expressed his regret at leaving Macleod where he had made so many friends.

Party Leaves for the Old Country

On Sunday evening, or to be more correct, early on Monday morning, there was a large gathering of Macleod citizens mustered at the depot to say good-bye to a party which was leaving the town for an extended trip to the "Old Land." The party consisted of Mrs. F. Thewlis, Mrs. S. Lewis, Mrs. W. T. Martin, Mrs. R. Gillespie and two children.

They all expect to sail for Liverpool on the C. P. R. steamer "Melita," which leaves Montreal on the 15th inst. Despite the early hour a good number were present to wish them bon voyage.

The only animals living in very dry places which seem able to do entirely without drink are snakes and reptiles.

Shall the Macleod Hospital be Closed

This was the main topic of discussion at the meeting of the Hospital Board on Monday night which was held in the town office, under the direction of the Chairman A. T. Leath. There was an unusually full attendance of members including Dr. Kennedy and Dr. Kirk.

After the secretary had read the minutes of the last meeting, the Ladies Aid in connection with the hospital had made a contribution of \$200 to the funds of the Board, which was greatly appreciated.

The Board then listened to a statement of the financial condition of the hospital, showing that the Board was going behind at the rate of \$200 per month. The chairman stated that this condition of things could not go on very much longer or the hospital would have to be closed in fact the staff had received notice their services might not be required after the end of the month as there was no money in the treasury to pay their salaries.

A deputation from the Board had waited upon the Council, but the Council was not in a position to help them, and unless something were done immediately they could not carry on any longer. The Hospital had been run as economically as possible, and there seemed to be no way of reducing the expenses any further. There was a full and frank discussion of the whole situation; some advocated the closing of the institution, and others thought that it might be handed over to the Sisters of the Roman Catholic Church, but Father Osborne said he did not think that was possible; neither did the Board as a whole seem in favor of closing up the building. It was pointed out that compared with other towns in the province Macleod was in better shape than most in regard to its hospital; Calgary is going behind at the rate of \$56,000 per year, Edmonton at the rate of \$27,000, while according to present prospects Macleod's deficit on running expenses should not amount to more than \$3,000 per year. There is some prospect of relief however, providing that a Municipal Hospital District is formed and the institution becomes a municipal hospital. The possibility of this being done had been taken up with the late Hon. A. G. MacKay, but his unfortunate death had delayed further effort in this direction for an indefinite period, and in the meantime something will have to be done to tide the Hospital over its present difficulties.

Two committees were appointed, one to take up the matter with the commanding officer of the R. C. M. P., and with the authorities at Ottawa to see if some grant or contribution can be obtained from them; the other to interview Bright Municipality and ask them if they can help out in any way.

Messrs. J. W. McDonald and George Skelding, M.P.P., were appointed to wait upon the government in Edmonton to place the whole situation before them and to urge the immediate formation of a Municipal Hospital District.

Rev. W. A. Lewis was asked to take up with the authorities in Edmonton the question of taking probationers.

It was also decided to call a public meeting on Tuesday, May 18th, and place the situation before the citizens of Macleod.

The meeting adjourned at 10 p. m.

The Bank of England is to be rebuilt. The new structure will be many stories high and will embrace some wonderful architecture.

Canada is to be represented at the well known meeting of the National Rifle Association at Bisley, England this year. The team will leave Montreal on the "Corsican" on June 12 in sufficient time to have about ten days practice before the competitions begin on July 6.

Prisoner of War in German East Africa

Those who attended the meeting held in the Parish Hall on Friday evening last heard a wonderful story told by Dr. T. R. R. Westgate, of the Canadian Church Missionary Society, who gave an illustrated lecture upon his work in what was German East Africa.

Dr. Westgate was for many years a missionary among the natives of the central part of East Africa, that was then under the German rule, and he had pictures taken by the Germans themselves to show how the Germans treated the natives even in peace times; he told how, that in order to avoid the cruel treatment meted out to them they would hide away in the bush, until they died of starvation, and that in every colony under German rule in West as well as East Africa, the natives were fast dying out because of the harsh treatment they were subjected to.

At the outbreak of the war Dr. Westgate and his colleagues were arrested by the Germans and subjected to the most rigorous and humiliating treatment; he was finally tried by court martial and an attempt was made to establish a charge against him of communicating with the British, but owing to the fidelity of the native witnesses, who often had to endure torture because of it, the Germans were not able to establish the charge and Dr. Westgate's life was spared. However he was kept in prison until the British finally cleared the Germans out of the colony, and the Doctor was liberated. The lecture was illustrated by a fine set of slides.

Dr. Westgate is now field secretary of the Canadian Church Missionary Society, and on Wednesday he paid a visit to St. Paul's Mission on the Blood Reserve and to the Peigan Reserve.

Inoculate your Peas, Clover and Alfalfa

It is a well established fact that each of the following legumes—alfalfa, field peas, alsike clover, white Dutch clover, red clover, white sweet clover, yellow sweet clover and sweet peas require a particular kind of bacteria to produce the most vigorous growth of stems, leaves and seed. The bacteria living within the nodules or swellings have the power to gather the free nitrogen from the air and to build it up into nitrogen compounds which are very essential to the growth of the plant and production of seed. The greater the number of these bacteria that occur within the roots of a plant, the more vigorous the plant will be.

In order to secure the necessary kind of bacteria in the soil in which a particular kind of legume is to be grown, the inoculation of the seed with a pure culture is recommended. The cultures are usually grown in two-ounce bottles, each bottle containing sufficient bacteria to inoculate sixty pounds of seed. Full particulars are enclosed within each mailing case.

Culture for the inoculation of alfalfa, shrd shrd hrd hrd hrd of the seed of alfalfa, field peas, alsike clover, red clover, white Dutch clover, white sweet clover, yellow sweet clover, crimson clover and sweet peas may be had by applying to the principal of the school of agriculture at Claresholm, Alberta. Applicants should state the number of each kind of culture that is required. The price of each is 25c per culture.

Don't miss seeing Wallace Reid, Theodore Roberts and Ann Little in the fast and exciting picture with a hair-raising climax, "The Roaring Road" at the Empress Theatre Friday and Saturday this week. Also Mack Sennett Comedy "Reilly's Wash Day" — Regular prices.

Macleod Irrigation Petition

According to a statement issued from Lethbridge, irrigation matters are being held up for a few days on account of irregularities in the Macleod petition. S. J. Shepherd, solicitor for the Lethbridge Northern Irrigation District, is endeavoring to have them straightened out.

In the first place the petition was addressed to the minister of public works, and without the petition being again signed the heading was changed so that it was addressed to the Lethbridge Northern Irrigation District, so that it would conform to the 1920 Irrigation Act. Mr. Shepherd is endeavoring to obtain a ruling from the attorney-general on whether this will cause future trouble or not. There are several other points as well that are receiving the attention of the authorities before the necessary advertising is done.

Alberta Bonds Quickly Sold

Toronto, May 6 — Alberta bonds were disposed of quickly in the United States market yesterday through a syndicate of Toronto and American bond houses. Only one bid was made for the \$1,000,000 issue. Later arrangements were completed whereby the syndicate which bought the \$12,000,000 purchased the additional \$1,000,000.

At the price of 101.57 the province borrows on a basis of about 5.40 per cent in Canadian money. Owing to the position of exchange the bonds were offered in the United States to yield the investor 7½ per cent.

Mennonites to Leave Canada

After a conference lasting all day on Tuesday, May 4 at Plum Coulee, Manitoba, the members of the old Mennonite Church at Rineland decided to leave Canada and seek new homes in the State of Mississippi, where they have secured options, along with the Mennonites of Saskatchewan, on large tracts of unoccupied land.

They hope to be permitted to have their own schools conducted under the direction of their own church, with German as the only language and the Bible as the lesson book.

Preparations are being made by them to move after this year's crop has been harvested, and delegates have left for the Mennonite settlements near Swift Current and north of Saskatoon to advise them of the decision of their compatriots in Manitoba. It is stated that the Alberta Mennonites are satisfied and will remain in this province.

Henry Ford To Re-organize

Formal notice of the re-organization of the Ford Motor Co. and other interests of its stockholders was filed recently with the secretary of state. The papers indicated that the automobile and tractor business will be consolidated and re-incorporated as a \$100,000,000 Delaware corporation.

The corporation powers of the new company will permit it to manufacture aircraft, internal combustion locomotives and railroad cars, and the auto truck and tractor business now conducted separately.

The capital stock, it is understood will be held by Henry Ford, Edsel B. Ford and Mrs. Henry Ford.

Incorporation is to be under the Delaware laws because the Michigan statutes do not permit organization of a company with capital stock of more than \$50,000,000.

Brotherhood Movement Visits Macleod

I. W. Williamson, of Toronto, who is touring the west in the interests of the World Brotherhood Movement, paid a visit to Macleod on Thursday evening last, and gave an address in the Town Hall.

Owing to the short notice there was very little time to advertise the meeting, so that the attendance was not as large as it would have been had more time been given to announce Mr. Williamson's coming. However there was a goodly number present and those were well repaid for their attendance.

Mr. Williamson is the chief evangelist of the Brotherhood movement in Canada, and in his address on Thursday night he gave a short history of the organization, and an account of the wonderful conference held in London, England, last September.

The movement had its birth in London when a meeting was called for men in one of the churches. Only seven men responded, but on the next Sunday there were forty. As the men were leaving the church he was heard to remark "Well, we have had a pleasant Sunday afternoon," and these last words became the name of the movement in its earliest stages, and soon nearly every church had its P.S.A. gathering. Since that time the work has grown until there are in England over two thousand societies with an average attendance of over a million men. After tracing the history of the Brotherhood through Belgium, France and other countries Mr. Williamson went on to describe the conference of last year when there were upon the platform men of such diversity of creed as Arthur Henderson, the leader of the British Labor party; Lord Cecil representing the bluest of English blue blood; Dr. John Clifford, the aged Baptist minister, eighty-four years old, and the Bishop of London; but the greatest of them all was Lloyd George, who came from a holiday in the south of France to give an address to the Brotherhood.

At the close of the meeting a small committee was appointed to consider the advisability of starting a Brotherhood in Macleod, and report to a meeting to be called in the near future, when it is hoped that a local organization will be perfected.

There will be a meeting of the committee mentioned above, in the Parish Hall, on Sunday afternoon, May 16th, at 4 p.m.

University Week for Farm People

Arrangements for the University Week for farm young people (June 14th-19th) are well in hand, and a folder containing particulars as to registration, transportation, and quarters is now available. This folder also contains the programme, so far as at present arranged, and may be had by applying to the Department of Extension, University of Alberta. All who are interested should apply for a copy.

Morphine Fiends Beg Jail Terms

In a desperate attempt to cure themselves of the morphine habit, two returned soldiers about thirty years of age walked into the provincial police court clerk's office in Winnipeg a few days ago and begged to be sent to jail for six weeks each. The request was granted and the clerk made out the necessary papers. The men acted as their own policemen and walked to the jail unescorted. They explained that the habit was first formed in the trenches when they began to take morphine to steady their nerves.

Murder and Suicide at Cardston

After hanging his deaf and dumb son, Royce, aged nine, to the rafters under the grandstand at the fair ground, about a mile west of the town of Cardston, on Saturday afternoon, last, George Leavitt, aged about 40, committed suicide by hanging himself, and when a couple of hours later searchers found them the two bodies were hanging side by side with life extinct in both cases. It was the most shocking double tragedy in the history of Cardston district.

The murder and suicide are believed to be the result of the deranged mental condition of the man, who had been under the close surveillance of his family for some time. His wife had been ill in the Galt Hospital in Lethbridge for some time and had returned about a month ago, but was still confined to her bed at home. It is believed to have been his wife's illness which unsettled Leavitt's mind.

Participation Receipts are Valuable

The chairman of the Canadian wheat board has issued the statement that wheat participation certificates will be worth at least 40 cents per bushel. This will bring the actual price of wheat to the farmer at \$2.45 per bushel.

Many farmers early in the season were of the opinion that these participation certificates were of little value, and sold them at prices ranging from 8 to 12 cents per bushel. They sold their certificates in spite of the warning issued by the leaders of the Farmers' Organization throughout the west, and now they find out how much they lost.

It is very probable that the wheat board will be continued another year because other nations have adopted the system of national control of the purchase and sale of wheat.

So far as the farmers are concerned they are more than satisfied with the work of the board, especially as the system under which they have worked eliminates the speculator and gambler from the market. The farmer would reap still greater benefits if all the coarse grains, but especially oats, could be handled in the same way.

June 20 U. F. A. Sunday

H. W. Wood, president of the U. F. A., has announced that Sunday, June 20th, is to be observed as U. F. A. Sunday.

U. F. A. Sunday has become an established institution amongst all the locals in the province, and in making the announcement Mr. Wood said:

"It gave Christian ministers an opportunity of examining the farmers' movement and measuring it by the standard of Christ's moral teachings. It is an invitation to our own members to investigate Christ's social teachings and to get what information and inspiration they can therefrom. Many of our members believe that Christ's social teachings, properly interpreted give more light on the true laws and ideals of social life than any other authority, but these teachings are not as generally understood and practiced as they should be."

Mr. Wood stated that Christianity as taught by Christ himself was either practicable or it was impracticable. They should face the issue squarely, know the truth and be guided by the truth.

New Manager for Macleod Bank

Mr. G. R. Johnston, who has been manager of the branch of the Bank of Montreal at Bromhead, Sask., has been promoted to the position of manager of the Macleod branch of the same bank, succeeding Mr. G. W. Hutchins, who has been appointed manager of the branch at Estevan, Sask. Mr. Johnston, who is of English birth, and is a graduate of Wesley College, Sheffield, had considerable experience in the Toronto and Montreal offices of the former Bank of British North America before coming west. He was for a time manager of the Paynton branch, and then took over the management of the branch at Bromhead. While

NOTICE TO CREDITORS

All creditors and others having claims against the estate of Samuel Percy Bunn, late of the Town of Macleod in the Province of Alberta who died on or about the 3rd day of July, A.D. 1916, are requested to send to the undersigned their claims, together with statement of securities (if any) held by them, duly verified by statutory declaration on or before the 14th day of June A.D. 1920, after which date the estate will be distributed and only claims then filed will be regarded.

Dated at the City of Saskatoon in the Province of Saskatchewan this 21st day of April, A.D., 1920.

Harold A. Ebbels,
Saskatoon, Saskatchewan,
Solicitor for the Administrator,
Roy P. Bunn. 8-4t

NOTICE TO CREDITORS

IN THE ESTATE OF ALFRED S.MEE, LATE OF MACLEOD, IN THE PROVINCE OF ALBERTA, FARMER, DECEASED.

Notice is hereby given that all persons having claims upon the estate of the late Alfred Sme, who died on the 11th day of January A.D. 1920, are required to send to John L. Fawcett on or before the first day of June A.D. 1920 a full statement of their claims and of any security held by them duly verified, and that after that date the executrix will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been filed with the said John L. Fawcett, the solicitor for the said estate.

Dated at Macleod, Alberta, this 27th day of April A. D. 1920.

John L. Fawcett,
Barrister,
Macleod, Alberta.

Approved:
E. P. McN. 8-3t

IN THE SUPREME COURT OF ALBERTA, JUDICIAL DISTRICT OF LETHBRIDGE.

There will be offered for sale by public auction subject to the approbation of a judge at the Court House in the Town of Macleod, on Saturday, the 15th day of May, 1920, at the hour of 12 o'clock noon, the following property:

Lot one (1) on the south side of Twenty-sixth Street, West of 5th Avenue, according to a plan of part of the Town of Macleod, of record in the Land Titles Office of the South Alberta Land Registration District as plan of the Town of Macleod, subject to the reservations and conditions contained in the existing certificate of title.

The vendor is informed that there is on the said lot a one and one-half story frame dwelling house, containing six rooms and a bath room, also a basement and furnace.

The said property will be offered for sale subject to a sealed reserve bid, free from all encumbrances save taxes for the current year.

Terms of sale twenty per cent. cash at the time of sale and the balance in sixty days with interest at the rate of ten per cent. per annum.

For further particulars and conditions of sale apply to
Johnstone & Ritchie,
Acadian Building,
Lethbridge.

Solicitors for the Plaintiff.
(Sgd.) J. A. Jackson,
L. J. S. C. A. 8-3t

in the latter town he took a prominent part in the social life of the community. He was president of the Bromhead Hall Co., Limited, an organization formed to promote the business and social welfare of the community, and other offices which he held in the town were: President of the Progressive Whist Club, Chess Club, Junior Baseball Club, and Junior Football Club, manager of the Bromhead Baseball Club, and secretary-treasurer of the Tennis Club. He also was for two years chairman of the Bromhead School Board.

Make the Prairies Homelike

The idea involved in the above heading is naturally that of making the prairies look more like home to people who have come from Eastern Canada and from other countries where there are many trees. At the same time trees are sociable things and give an air of comfort to the landscape. More than that, in proper places, as along the borders of fields, trees are a great benefit to dwellers on the prairies. They form a wind-break against cold winds in the winter, and against hot, drying winds in the summer, they prevent snow drifting deep about barns and out-buildings, and, as the wind-break and shelter-belt gets older, the thinnings come in handy for posts and rails and even for fuel. It used to be thought that trees would not grow on the prairie, but since over fifty million tree seedlings and cuttings have been sent out to prairie farms by the Superintendent of the Dominion Forest Nursery Station at Indian Head, and since, at the request of western farmers, about five million more of these free trees are now going out every spring, it is evident that that old idea is thoroughly exploded. It is harder to grow trees on the prairie than in the formerly timbered country of eastern Canada, but the methods which must be followed are now known and have been embodied in bulletins which may be secured free upon application to The Superintendent Forest Nursery Station, Indian Head, Saskatchewan.

Poisonous Weeds Bulletin

The old saying that one man's meat is another man's poison appears to be true in the case of different kinds of live stock. It is a fact that some plants which poison horses are not injurious to cattle or sheep, and some which cause loss among cattle and sheep are not eaten by swine and horses. In Bulletin No. 39, second series of the experimental farm, "Principal poisonous plants of Canada" by Miss Faith Fyles, B.A., obtainable free upon application to the Publications Branch, Department of Agriculture, Ottawa, a list of plants which do injury to the various classes of animals is given. The bulletin, which is prepared for livestock owners, gives information regarding poisonous plants and enables the farmer to distinguish the most harmful species in his neighborhood so that he may be able to avoid pasturing animals on infested areas until the danger is past. The yearly loss due to plant poisoning is known to be on the increase but the amount of the loss is not ascertainable because many fatalities are attributed to other causes through lack of knowledge of poisonous plants.

EGGS FOR HATCHING

Rose Comb Rhode Island Reds, \$2.50 for 15; \$4.50 for 30. First prize cock at Taber mated to second prize Medicine Hat hens, and third prize hen at Taber, \$5.00 for 15.

Pen 2—Son of first Taber cock mated to eight good pullets, \$3.00 for 15.

Single Comb pen, headed by second prize Calgary cockerel to eight females of good type and color, \$5.00 for 15.

Golf Notes

The first competition for the cup donated by the Calgary Daily Herald for competition among the golf clubs of Alberta, will be played off in Calgary on the 24th of May. Each club is entitled to send four representatives. Those for Macleod will be D. G. Mackenzie, T. Gillespie, J. E. Wilson and one other to be selected later. The competing clubs will be Calgary Golf and Country Club, Calgary St. Andrews, Calgary Municipal, Calgary Bowness, Edmonton Golf and Country Club, Edmonton Municipal Club, Lethbridge Golf Club, Medicine Hat Club and Macleod Golf Club.

The restoration of Belgium to its pre-war state is said to be far advanced. This is characteristic of the Belgian people, who are thrifty and industrious to a degree. We have not been hearing much in argument from the Belgians since the war, evidently they are too busy with their job of "coming back."

The increase in drugs smuggled into Canada is likely to be used an argument against prohibition. It is no argument against prohibition. It is much harder to get the drug dope than it is to get a prescription. The increase in the drug habit is alarming, but prohibition is not responsible for it.

A Canadian commissioner, with practically all the authority of an ambassador or minister, will be stationed at Washington, which is another step forward for the Canadian nation, and is a very sensible move all around.

YOUNG PEOPLES SOCIAL

St. Andrews Presbyterian Church Young Peoples Society will hold a Literary Social and Musical Evening in the Town Hall, on Monday, May 17th at 8 p.m. An excellent program will be provided. A silver collection will be taken. 10-1t

Four new ocean steamers for the Canadian Pacific indicate that this company has confidence in the future of the Dominion and is not afraid to take a big financial chance on it.

SEED BARLEY

The Alberta Pacific Elevator Co. have a car of Extra No. 3 Barley for sale, suitable for seed. The Government Certificate grades this as No. 2 Seed. 10-1t

Advertisers can facilitate the Times getting out promptly on Wednesday of each week by having their changes of advertisements ready when the paper's representative calls for them on Monday of each week.

If you want to see an original and fantastic tale of Japan you should not fail to see "The Willow Tree," starring Viola Dana, which is coming to the Empress Theatre next Monday and Tuesday.

The regular meeting of the School Board was held in the public school on Tuesday evening, but as Inspector Watson had not completed his report, only the routine business of the Board was transacted.

If you are interested in your own town attend the Hospital meeting on Tuesday evening.

CARD OF THANKS

Mr. and Mrs. F. J. Wall and family wish to express their thanks to those who so kindly assisted them in the recent bereavement on the death of their daughter Mary Wall. 10-1tp

A Bolshevik offensive on a recent occasion failed because so many soldiers had deserted to go back home and sow spring crops. That is an evidence of a return to sanity.

DANCE AT MUD LAKE

Mr. Z. LaFrance announces a Dance at Mud Lake School on May 24th. Good Music and good time assured to all.

Admission: \$1.00 per couple. 10-2t

SASKATOON'S UNIVERSITY FOR THE PRAIRIES

Upper Picture.—One end of the Administration Building, University of Saskatchewan, with the Engineering Building in the background.
Lower Picture.—A Travelling University, showing how instruction is carried to the farmers of Saskatchewan.

Long after the ivy peered in at the upper windows of such splendid universities as Oxford, Cambridge or Harvard, such an institution as the University of Saskatchewan had not even been imagined. When Sir Wilfrid Laurier, who laid the corner stone of this new university July 29th, 1910, was a student poring over his books few but Indians had stood on the height of land which is the site of the buildings shown in the accompanying photographs, and watched the waters of the South Saskatchewan River gliding swiftly and silently northward.

Although the prairie soil was as rich and the river as broad and full then as now, the City of Saskatchewan was unconceived. Even as late as twenty years ago, where now stands a city of 30,000 people on three lines of railway, there were not one hundred men, women and children and these were housed in a few tents and shacks. The wildest enthusiast would hardly have dared to prophesy that one day a university would grow there—yet there it stands!

The buildings of the University of Saskatchewan crown the height of land north east of Saskatoon and the site could hardly have been more fortunately chosen. It includes half a mile of well-wooded river front and altogether embraces 1,333 acres of rich land, 233 acres of which are set aside for a campus, 160 acres for purposes of agricultural experimentation and \$30 for the Agricultural College farm. The plan provides for the eventual accommodation of 5,000 students.

The present buildings consist of an administration building, containing a hall and offices for the different departments as well as class

rooms, two students' residences, one containing a spacious dining hall and the other a gymnasium and swimming pool; an engineering building; livestock pavilion and up-to-date model farm buildings. All the buildings conform to the preconceived plan and will, like those already erected, be of stone in the Gothic style. Work has just recently begun on a new science building. There are also several private residences on the campus, the two principal stone ones provided for in the architect's plan being those of the President of the University and the Dean of Agriculture. The buildings of Emmanuel College, a church of England Divinity School, the first of its kind in Saskatchewan also occupy a part of the campus. The University grants sites of from three to five acres to such affiliated colleges at a nominal rental. Eight thousand dollars has already been subscribed towards a beautiful structure which will be the home of the Presbyterian College.

The university provides degrees in Arts, Science, Law, Agriculture, Civil Engineering and a Diploma in Pharmacy.

The present enrolment is between 1,400 and 1,500, including returned soldiers who are retraining in various branches of skilled work, particularly engineering. Scores of promising returned soldiers have been turned out as capable motor mechanics. Steam engineering and the handling and repairing of farm tractors are also taught. Agricultural students, principally the sons of farmers, are training in livestock handling and judging, and even in the care and management of poultry.

An important feature of the work of the University of Saskatchewan

has been its Extension Department consisting of short instructional courses at seasonable times for farmers and farmers' wives. Each year a special train is fitted out and a regular course of instruction mapped out including lectures to farmers. This train is widely advertised as the "Better Farming Train." It makes a tour of the Province, stopping at all important points and the farmers drive in for miles to examine the exhibits, talk over their problems with experts and hear the lectures. Realizing that the average busy farmer cannot go to the University, an effort is made to take the University to him and to let him know at first hand the results of experiments with special varieties of grain, the latest information about methods of soil tillage, and the like.

During the recent winter evening lecture courses have been given at a nominal fee for the benefit of city residents. Some of the best educated people in the community have attended these classes.

From an educational standpoint Saskatoon offers as great opportunities as any city in Canada. Complete training from Kindergarten to University is provided through a fine set of public schools, thirteen large public schools, which ranged in cost from \$118,000.00 to \$156,000.00 at pre-war building prices. An accompanying photograph shows two of them in one block in the working class section of the city. The enrolment of pupils in the public schools is now well over 4,000.

The Collegiate Institute, which provides the intermediate stage between the Public Schools and the University, has an enrolment of about 2,000.

Opium Smuggling into Canada

In presenting his report to the house of commons at Ottawa recently, Hon. N. W. Rowell, minister of health, referred to the alarming increase in the use of drugs during the past year. He stated that a large quantity of opium and other "dope" is being smuggled into Canada from the United States.

A year ago said the minister, the quantity of opium and opium products, such as morphine and cocaine imported into Canada had reached 37,210 pounds, an increase of about 800 per cent in five years. Consumption in Canada did not explain the increase, and the department of health had every reason to believe that stringent regulations in the United States had driven those who trafficked there in the drug to bring their supplies into Canada and smuggle them across the international boundary. They were then in possession of quantities of the drug not registered with the authorities and therefore free from the regulations which require that disposition of every ounce of the drug be reported.

Greater Control of Traffic

In explaining his amended Opium and Drug Act to the House Mr. Rowell stated that it was aimed to establish a greater measure of control over the traffic in Canada of opium, morphine, heroin and cocaine. The effect of the first Canadian campaign in 1908 had been to reduce the imports of these drugs into Canada until in 1910 they had dropped in two years from 81,000 pounds annually to 6,418 pounds. In 1917 these imports doubled the previous year, and continued to mount until in 1919 the figure for the ten months ending March 31, 1919, stood at 37,210 pounds. The department of health was then formed, and took over the active administration of the law regarding opium in Canada. The succeeding ten months saw a decrease in imports to 7,995 pounds. However, in the three years, up to March 1919, about 85,000 pounds of opium drugs had been imported as against about 19,000 pounds in the three years ending 1916.

There will be a meeting of the I. O. D. E. in the Methodist Church Hall on Monday, May 17th at 4 o'clock in the afternoon. Every member is requested to be present. 10-11

Nanton S. D. Loses an Appeal

Ottawa, May 7.—Appeal was dismissed in the supreme court yesterday in the case of Nanton, Alberta, school district No. 50 vs. Canadian Western Natural Gas Company against the assessor's valuation of the respondent's property.

The dismissal of the appeal as stated above means a victory for the gas company, and the fixing of the assessment of some 11 miles of the main pipe line, lying within the rural school district of Nanton, from Bow Island, at \$19,000, instead of \$250,000, the original assessment made by the school district. H. P. A. Savary, counsel for the gas company, stated to the Albertan last evening.

The assessment of \$250,000 was made last year by the assessor of the school district. The gas company took the case to the court of appeal of the district, who confirmed the assessment, and the company then appealed to the district court, and Judge McNeill, of the district court at Macleod reduced it to \$19,000. Against this assessment the school district appealed, taking the case to the supreme court of Canada.

Basis of Assessment

The case turned entirely on the basis on which the assessment should be made. The local assessor it is said assessed the property at what he considered a fair valuation on the basis of actual cost of reproducing the pipe line. The gas company, on the other hand, held that the assessment should be made on the value of the actual physical asset, and the judges of the higher court supported this view, holding that to be the value of the pipe line if it were taken up and sold as piping.

H. P. O. Savary appeared for the company, and J. W. McDonald, of Macleod for the school district when the case was being heard in the Alberta courts. At the hearing of the appeal by the supreme court of Canada, Eugene Lafleur was counsel for the gas company, and A. H. Clark, K. C., counsel for the school district.

All Canadians are Forest Owners

Canada is in a unique position in regard to forests. Not only has she still large resources, but 95 per cent of the land on which these forests stand belongs to the Dominion or to is to the people of Canada. Nor is this ownership merely nominal. The different governments receive from the lumberman a price per thousand feet when the timber is cut and a ground rental for every year the lumberman occupies the land. Thus, in addition to the benefit Canada receives from timber as a great basis of trade and manufacture, the taxes are reduced by the amount of this revenue. It therefore doubly behooves every Canadian to do all in his power to stop forest fire. Tourists may start a fire by throwing a lighted match from a smoking-car, or a clearing fire may get away from a settler clearing his land, or a hunter or fisherman may leave his camp-fire still burning when he breaks camp. Everyone should remember that every time these things happen and a fire starts every citizen in Canada is a loser. Those who care to pursue this subject further may secure free of charge a bulletin giving the statistics of forest fires by applying to the Director of Forestry, Ottawa.

The longest average life is enjoyed by the Norwegians.

Don't forget the Hospital meeting on Tuesday night.

WEDNESDAY, MAY 12, 1920

Attention is called to a notice appearing in another column of this issue of the Times, calling a public meeting to discuss the financial situation regarding the Macleod Hospital. It is hoped that this meeting will be attended by every citizen of Macleod who is interested in the welfare of his fellow men.

The purpose of the meeting should not be to discuss whether or not the Hospital should be closed, but to provide ways and means for keeping it open.

However, supposing the institution is closed, that would mean that there would be no hospital accommodation between Lethbridge and the Cottage Hospitals at Bellevue and Blairmore, and south of High River.

We have only to think of that

unfortunate and serious accident to the Ferguson family to realize what might have been the result had there been no hospital at which they could receive immediate attention.

But the Hospital cannot be carried on without money, and there lies the crux of the whole question. Who is going to provide the money? It can be raised in three ways: By a government grant. The present government grant to hospitals in the province of Alberta is 50 cents per day per patient—and the hospital must be open to all comers whether they can pay or not or it loses the grant. In Ontario it is understood the grant is \$2.55 per patient per day, which is a much more generous grant than that in the Province of Alberta, while in Ontario, because of the greater density of population, the hospitals are able to draw a much larger revenue than those of the west owing to its sparsity of population.

Another way of raising money is by voluntary contributions, and this has proved a most unreliable and unsatisfactory way, because a steady and constant revenue can never be depended upon. All honor is due to public spirited citizens, and to such organizations as the Ladies' Aids, who have made many and splendid contributions to Hospital funds, but with all their efforts they have found it impossible to provide a steady revenue whereby the institution can be kept running.

The other way is by taxation. An area large enough to support a hospital is mapped out, and everybody is assessed a small amount, but which in the aggregate is sufficient to keep the hospital going, so that when any person is overtaken by accident or sickness there is a place within easy reach where the patient can receive immediate skillful attention.

As regards to the hospital in Macleod, it has been served by a number of the business and pro-

fessional men of the town, who have been unflinching in their interest and untiring in their energy on behalf of the institution, and they have been supported by a loyal band of nurses, but these men have found the burden too heavy and the task too difficult, and they should not be left to fight the battle alone. Every effort is being made and will be made, to get a Municipal Hospital District formed—but this is in the future as yet—the present duty of every Macleod citizen is to come to the meeting on Tuesday and rally round the members of the Hospital Board.

COMMUNICATED

Seemly discussion of matters of public interest is invited under the above heading. As an earnest of good faith and to insure publication, all communications to the editor must be signed by the contributor (nom de plume signature for publication if so desired). The editor of The Times is not responsible for opinions expressed or statements made under above heading; neither does he necessarily endorse or condemn such opinions or statements.

Macleod, May 10, 1920.

The Editor,

Macleod Times:

Dear Sir:—

Referring to Mr. A. Burbidge's letter in your issue of the 5th inst., I was present at the meeting referred to and must say that I am surprised at the wrong statement Mr. Burbidge made when he states that he was prevented from expressing his opinion and presenting his complaint on how the feed was handled this winter. Also that "There were others who had complaints and wanted to have the question aired and were watching for a chance to get on their feet and speak." I would like to state that the chairman told Mr. Burbidge that the proper place to air any feed grievance was at the meeting of the Farmers' Hay Association, but he courteously invited him to state his complaints with a view of pouring oil on the troubled waters, and as far as I could judge, Mr. Burbidge had ample time to state his grievances, which were dealt with by the chairman in a clear and satisfactory manner, and in the opinion of the majority present the explanation fully met the case. As regards others wanting the questions aired, I may say that they had the same opportunity to speak as Mr. Burbidge, and I have no doubt the same courtesy would have been extended to them. When the Macleod U. F. A. Co-Operative Association business for which the meeting was called was through there was no necessity to prolong the meeting, especially as Mr. Burbidge had apparently said all he had to say. Hoping that this letter will tend to remove the erroneous impressions which may have been received, and thanking you for the insertion of the above,

Yours truly,
A. V. Harris.

Grasshoppers

Of all the means employed in destroying locusts none other can compare favorably with the poisoned baits, the utility of which has been proven beyond question. Their success, however, depends greatly upon careful application, while failure can nearly always be traced to some fault in making or applying the baits. The Entomological Branch has just issued Circular No. 13, "Locust Control in the Prairie Provinces," by Norman Criddle. This will be sent free upon application to the publications Branch of the Department of Agriculture, Ottawa. It gives full information regarding preparation and application of baits. It further states that the locusts, which last year did great damage in Western Canada, are the later kinds known respectively as the Lesser Migratory and the Pelucid Locusts. These locusts pass through various stages and reach maturity about 45 days after emerging from the ground in early May. During this time they continuously feed on growing plants. On attaining the winged state the habits of the locusts undergo a change; they acquire flying and egg-laying habits, still remaining voracious feeders. By the end of June flights are a general occurrence, and extensive migrations may be observed on warm sunny days.

THE SONG OF THE HAY RACK BRIGADE

Half a block, half a block,
Half a block onward,
On to the freight yard
For feed for his hundred.
"My cattle must be fed,
I'll go to town," he said,
"And get a load of hay
For my poor hundred."

What though he heard them say
"Only one car today,
And teams are on their way,
Teams by the hundred!"
Yet he must come with speed,
Desperate in truth his need,
Only one bale to feed
His bawling hundred.

Grain tanks in front of him,
Hay racks behind him,
Teamsters all round him;
Oh, how he wondered.
Sixty in front of him,
Fifty behind him—
Feed for his hundred?

Flashed all their hay hooks
there,
Flashed in the frosty air,
Handling the bundles there
While section men wondered.
When to the car drawn nigh,
Vain his imploring cry—
"Give me four tons that I
May stop the piteous cry
Of my one hundred."
Sadly he turns away—
Four bales of slough grass hay;
All—for his hundred.

Snow drifts in front of him,
Snow drifts behind,
Sand piles each side of him—
Homeward he floundered.
Slow have the miles passed by,
Once more he heard the cry—
They see him drawing nigh:
Eager one hundred.

Half a bale, half a bale,
Half a bale sundured;
A handful to every cow,
While all the calves wondered;
Their's but to stop their cry,
Their's but to eat or die—
"I see I'm fifteen shy
Of my one hundred."

When can the memory fade
Of the wild trips he made?
Whilst work horses wondered.
T'was scarce worth the effort
made,
T'was scarce worth the price he
paid.
For the few head he saved,
Out of his hundred.
By H. A. G.

AUCTION SALE OF FARM LANDS

Pursuant to the order of the court there will be offered for sale in front of the Court House in the Town of Macleod on Saturday, the 5th day of June, 1920, at the hour of 12 o'clock, noon.

The north-west quarter of Section Twelve (12) and the South-East Quarter of Section Thirteen (13), both in Township Nine (9), Range Twenty-eight (28), West of the Fourth Meridian, Alberta, containing three hundred and twenty (320) acres more or less but subject to the conditions and reservations expressed in the original grant from the Crown and in the existing certificate of Title.

The property is situate 2 miles from a school and 16 miles from the Post Office and 16 miles from the Canadian Pacific Railway Company's station in the Town of Macleod.

There are about 100 acres of the land which have been cultivated and the remainder is unbroken. There is a frame house 18 feet x 20 feet with an addition 12 feet x 20 feet, partly plastered and with shingled roof, also a granary, stables and sheds on the property. The land is fenced with a three-strand barbed wire fence in a good state of repair, and there is a good spring on the property.

The sale is subject to a Reserve Bid which has been fixed by a judge.

Terms of Sale:—10 per cent of the purchase money to be paid at the time of the sale and the balance to be paid into Court within 60 days without interest.

For further particulars apply to
McDonald, Martin & Mackenzie,
Solicitors,
Macleod,
Alberta.

CUT THE HIGH COST OF LIVING. ASK THE MAN BEHIND P. BURNS' MEAT MARKET COUNTER. HERE'S ONE WAY.

ENGLISH POT ROAST

REQUISITES:—1 No. 1 Pot Roast, purchased at any of our markets, 1 oz. Burns' Shamrock Lard or 1 oz. Burns' Refined Beef Dripping, 1 Carrot sliced, 1 Onion sliced.

RECIPE:—Use a regular braising pan, and when the lard or dripping is well heated place the pot roast in the pan and leave until thoroughly browned; add one sliced carrot and one sliced onion. The addition of peppers or bay leaf lends a very pleasing flavor. When thoroughly braised, stir in two tablespoonsful of flour and add 1½ pints boiling water, and let simmer for 1½ hours, when it is ready to serve.

N.B.—We are indebted for this receipt to Mr. L. Cunningham, Chef at the Empire Hotel, Calgary. Mr. Cunningham is unquestionably an authority on "Pot Roasts."

P. BURNS & COMPANY, LIMITED, MACLEOD

Why Postmasters Complain

Of all the public servants in the employ of the government there are none whose hours are so long, whose duties are so exacting, and whose pay is so small in comparison with service rendered, as the postmasters and postmistresses in country towns and rural districts.

According to a statement issued by the Canadian Postmasters' Association there are in Canada nearly 8,000 postmasters who receive as salary only \$60.87 per year, or 19 cents a day; and 750 more whose allowance is but \$75 per year, or 24 cents a day; and in all Canada there are only 45 city offices with anything like adequate pay.

Yet the postmasters of our country have to work long, and often, inconvenient hours; on an average twelve to fourteen hours constitute the postmaster's day. There is no allowance made for meal hours; and often the outgoing mail leaves early on Monday morning, involving Sunday labor for which no pay is received.

The postmaster has no holidays, for he has to receive and despatch mail and keep his office open for part of the day and if he happens to close the wicket right on time there is an awful wait on the part of the public.

There are probably 4,000 offices whose revenue is under \$100.00 and consequently they receive no rent allowance whatever.

The abnormal increase in newspaper circulation; the introduction of the parcel post, and the extra duties in connection with the financial and military work during and since the war have increased the labor of the postmaster to an alarming extent, and yet they have received no extra allowance.

Notwithstanding the war is over the cost of living and labor continues to advance, and hundreds of postmasters are in a dilemma because they have been notified by their assistants that they must either increase their salaries or lose their help. The postmasters feel that if only their position was realized and recognized by the public they so faithfully serve, sufficient pressure could be brought to bear upon the government so that the whole question of salaries could be arranged upon an equitable basis.

The schedule adopted by the Canadian Postmasters' Association is as follows:

Schedule

\$100 Minimum. Salary—Abolition of Commissions; but till salaries can be established on an equitable basis the following commissions be paid for financial years ending March 31st, 1920 and 1921. 70% on the first \$1,000 of revenue; 40% of revenue over \$1,000 up to \$2,000; 30% of revenue over \$2,000 up to \$10,000; 20% of revenue over \$10,000.

Rent—Graduated scale now in use to be abolished. A minimum of \$25 be paid to every office and while commission remains in force 10% on revenue to be the allowance to cover the items of rent, light, fuel and caretaking.

Forward Duty—To be paid for both direct and indirect service at the rate of 15% commission on revenue of the offices served.

City Postmasters—to get 50% increase.

City Sub-Offices to get 50% increase of salary and 3% commission on sale of Postage stamps.

Union of Maritime Provinces

There is a strong agitation going on in the maritime provinces at the present time which has for its object the amalgamation of the three Atlantic provinces of Nova Scotia, Prince Edward Island and New Brunswick into one province. This is a question that has often been discussed in previous years, but no doubt owing largely to local jealousies and prejudices, nothing seems to have been attempted. However many circumstances are combining to remove these, and there is reason to believe that it may be approached by those who are interested in a very sympathetic manner.

The area of the three provinces named is 51,597 square miles, as compared with 255,285 square miles for Alberta. The population combined is less than 900,000. Last government returns showed combined revenue for the three to be \$4,159,000 as compared with Alberta's \$6,260,000. The expenditure for the three was \$4,986,000 as compared with Alberta's \$6,752,000. There is still plenty of room in the maritime provinces for settlement,

there being hardly more than one resident now for every one-twentieth of a square mile of territory, which means that with urban population excluded there is an abundance of farm lands available.

The leading newspapers on the Atlantic coast are in entire sympathy with the movement, and their attitude is illustrated by the editorials recently appearing in two of their most prominent journals. The St. John's Telegraph has the following to say:

"It is an outstanding fact that the common interests of the people of the three provinces are so great as to furnish in themselves a strong argument for unity. The union question is not one that can be settled hurriedly. It must be advanced stage by stage with dispassionate consideration of every feature."

If a western opinion has any value it is that the union should be consummated at the earliest possible date. The maritime provinces have everything to gain by such a move, and little, if anything, to lose. The union will certainly upset the dreams of certain provincial office-seekers, but maritime province men are too big minded to prevent anything so small and selfish to interfere with what is a real national interest.

While the Sydney Post, in discussing the subject says: "Apart from the waste of maintaining three local parliaments for 900,000 people maritime Canada would exercise vastly greater influence in federal affairs if united into a single province. For one thing, a united maritime Canada would be in a position to secure the adoption of a fair immigration policy, which would ensure to the east a reasonable number of the settlers who will soon be coming from the United Kingdom in great numbers."

"Furthermore, in this age of national reconstruction, strong and progressive provincial governments are particularly necessary. There is too much provincialism in the maritime provinces, largely because of the county council type of legislature they possess. From every point of view eastern Canada has everything to gain from the adoption of some scheme of maritime union."

NEXT TOWN HALL

Methodist Church Has Good Year

On Tuesday evening last the Methodist Church held its annual congregational meeting in the church hall, and the pastor,

Rev. W. A. Lewis, B.A., occupied the chair. At this meeting reports from the different departments of the church are presented after having been submitted to the official board which met last week.

All the reports showed a more healthy condition of affairs than has been the case for

some years, which, in spite of the hard times caused by the drouth, is extremely gratifying. Reports were given of the Sunday School, of the Women's Missionary Society, and of the general church finances. The Ladies' Aid raised on an average the sum of \$75.00 per month, and a vote of thanks was passed them for their valuable assistance.

The minister's salary was reported to be more than paid, and a recommendation was made to the official board that the salary be increased \$200. This resolution was put to the members by A. F. Grady, and was carried unanimously. At the close of the business those present gathered around the festive board and a social hour was spent over the cups of tea and coffee.

Prizes for the Coming Fair

There was a meeting of the Agricultural Society held on Saturday afternoon last at which considerable relating to the fall fair was transacted. It is announced that the prize list for cattle and horses will be the same as last year except that on the recommendation of the committee in charge of any class there may be a slight increase.

A letter was read from Mr. K. W. Reikie, manager of the Bank of Commerce, announcing that the Bank would donate a large silver cup suitably mounted, for the best collective exhibit from any rural school in the Macleod district of noxious weeds named and mounted. The exhibit to become the property of the Bank for display in the local office.

Mr. A. T. Leather also offers a prize of \$10.00 for the best five-pound fruit cake to become the property of the donor.

Miss Mary Wall Dies in Calgary

Mr. and Mrs. J. F. Wall have suffered a severe loss in the death of their daughter Mary, who passed away in the Holy Cross Hospital at Calgary on Friday last at the early age of twenty-one years. Miss Wall had just about completed her studies in the Roman Catholic College when she was stricken down about three weeks ago, and in spite of all that could be done for her she died on Friday morning.

Her body was brought to Macleod for burial, and the funeral took place on Monday morning from the Roman Catholic Church. Many friends will regret her passing and will extend their sympathy to the bereaved parents.

High School Social

A most enjoyable affair took place in the Parish Hall on Saturday evening, in honor of the Lethbridge Basket Ball team, when Macleod High School gave a dance. The music was voluntary until, the old favorite Ernie Charlton appeared.

Dancing began at half past eight and was continued until eleven, when refreshments were served, after which Mr. Wade thanked Macleod High School for the delightful entertainment, on behalf of Lethbridge. The opposing teams gave their school yells and at eleven forty-five the merry crowd broke up.

Much praise is due Miss Simpson, who was the mainstay of the tea and refreshment committee. Miss Simpson even stayed in to wash the dishes and she was entirely worthy of the three hearty cheers given her.

A DANCE

A dance under the auspices of Christ Church W. A. will be held in the Parish Hall on Monday, May 17th. Dancing at 9 p.m. sharp. Admission: Gentlemen \$1.00, ladies, 50c. 10-11

Our rebuilt and reshaped shoes stand the most minute inspection. Lemire the fashionable shoe repair artist.

Distribution of Clover Seed

Some time ago Professor G. H. Cutler of the Department of Field Husbandry, of the University of Alberta, offered small samples of seed of sweet clover and Alfaswede red clover. Although only small quantities are offered, and the offer is confined to Alberta farmers, the applications for this seed have been simply overwhelming. They are still coming to hand at the rate of eight or ten per day.

Professor Cutler feels that this hearty response is an indication of one of the great needs of Alberta farmers. There is perhaps no one problem in Alberta farming that presses with greater insistence for a solution than that of suitable forage crops. It would seem that the Province should spend large sums of money in research, so that an early solution may be found to the forage crop problem. The whole fabric of successful agriculture depends upon it. This has been brought home in no uncertain way during the past year.

In view of these needs two years ago exhaustive investigations were undertaken so that as rapidly as possible information of a definite character could be given. New legumes and grasses following the Alfaswede will, we hope, be forthcoming from these researches, that the needs of the farming public may be met as early as is in keeping with the best results.

This year forage crop investigations are being considerably reinforced at the University by additional work in the grasses, sunflowers, corn and sweet clover.

Deaths by Accident

The appalling loss of life from accidents, many of which might have been prevented, was presented in a striking way at the Accident Prevention Congress in Worcester, Mass., says the Toronto Globe. C. W. Price, general manager of the National Safety Council, showed that the number of American soldiers killed or fatally wounded during the nineteen months that the United States was engaged in the European war, was only one third the number of people killed at home by accident during the same period. While 47,949 persons lost their lives in the war, no less than 126,000 men, women and children were accidentally killed in the United States, of whom 35,000 were in industries, and 91,000, including 25,000 children, were outside of industries.

As the result of thirteen years experience, Mr. Price claimed that three-fourths of all deaths and serious injuries in industries can be eliminated if the manufacturer so desires. Investigation showed that of the 22,000 serious accidents reported in industries in 1919, 16,500 could have been eliminated by proper precautions; that taking the experience of one thousand industries reporting, there was shown a reduction of fifty to seventy-five per cent in the deaths; that of this reduction, one-third was accomplished with mechanical devices, and two-thirds by reaching the foremen of departments; that every company reporting had done effective safety work, and also proved to itself that by so doing, not only were ordinary dividends paid on the investment as a direct result, but extraordinary dividends as well.

The council was greatly impressed by the extraordinary number of accidents to children, and concluded that the best method to spread safety first principles was through the education of the child.

BRIGHT MUNICIPAL DISTRICT No. 69

Councillors—T. Murphy, Evelyn; T. Bailey, Aldenville; Robt. Carroll, Macleod; R. H. McNab, Macleod; John Stienhoff, Macleod; Fred Wood, Macleod. Sec.-Treas. H. W. Bright. Council meets 1st Saturday. Municipal Offices, 24th St., Macleod.

SWORN STATEMENT OF CIRCULATION:

Province of Alberta, To wit: I, Stephen Dillingham of Macleod, in the Province of Alberta, manager of The Macleod Times, do solemnly declare that the circulation of the issue of the said The Macleod Times of the 5th of May, 1920

was upwards of 1,200 copies in the town and district of Macleod; and further that the entire circulation of The Macleod Times of the above date was upwards of 1450 copies, and I make this declaration conscientiously believing it to be true, and knowing that it is of the same effect as an oath by virtue of the Canada Evidence Act.

Declared before me at the Town of Macleod, in the Province of Alberta this 12th day of May, 1920.

Joseph D. Matheson, A Commissioner for Oaths. S. Dillingham, Manager Macleod Times.

LOCAL AND PERSONAL

D. Bain, of Lethbridge, spent the week-end with the family in Macleod.

Mr. and Mrs. J. B. Sutherland entertained at their home on Tuesday evening.

High School Inspector Watson was in Macleod on Tuesday on official business.

T. W. Hamilton, of the Service Garage, is suffering from an attack of rheumatism.

All the members are requested to be present at the meeting of the I. O. D. E. on Monday afternoon next.

Blakely McNeil was in town on Tuesday from Stand Off. He came in in his car and was seven hours on the road.

Hugh Black is leaving for Spokane this week, in which city he expects to make his home for some time.

Postmaster McNichol is leaving for the east on Saturday, going first to Ottawa and then on a visit to points in Ontario.

L. Bubser, who has been under medical attendance at the hospital for the past two weeks, is able to be out and around again.

Mayor Fawcett was a visitor to Calgary last week in connection with the main tourist road proposed to be built through Macleod.

Stewart & Sons, of Pearce, are cultivating an average of 75 acres a day with a 15-foot cultivator pulled by a 15-27 Case tractor.

Mr. J. F. Miller, manager of the Union Bank is leaving Pincher Creek for Minnedosa, Man. He is succeeded by H. W. Cunningham late of Didsbury, Alta.

According to reports coming in from various parts of the province seeding is well under way—Although owing to late spring there will be less wheat sown than usual. This in the face of the fact that there is a world's shortage of wheat is

serious. As the price of flour is likely to go higher in consequence.

Alex McDonald says he seeded 165 acres in two days with two Van Brunt 20 hoe drills pulled by a 15-27 Case tractor—come on with your records.

A large number attended the Tea Dansant last Wednesday afternoon, and the dance given in the evening, by the Ladies' Auxiliary of the Macleod G. W. V. A.

There was a party and social gathering last Friday at the home of Mrs. C. W. McKinnon, when about thirty young people gathered and spent a pleasant and enjoyable time.

Mr. and Mrs. L. R. Barnett, Mrs. Kerr Seymour and Mr. and Mrs. W. Stewart were in Calgary on Tuesday attending the Hudson's Bay Pageant, given to celebrate the Company's 250th Anniversary.

The farmers in the Mud Lake district report that they are all busy day and night in their endeavour to get in the crops. These with tractors working night shifts in order to get the seed in on time.

A new record for seeding operations was set for the North American continent last week when in two shifts of nine hours each, 26 drills planted 1,200 acres on the Noble Foundation farm last Wednesday.

Leslie Galbraith, who was a pupil in the Public and High School of Macleod, and who is well known in the town, figures in the examination results of the University of Toronto, having passed with honors in Mechanical Engineering.

L. R. Barnett, manager of the Hudson's Bay Big Store, and W. S. Stewart, head of the Bay Hardware Dept., were guests at the banquet given on Tuesday in Calgary by the Hudson's Bay Company, in connection with their 250th Anniversary Celebration.

His many friends in Macleod will be glad to hear that J. Sanderson, manager for P. Burn's is back in town from Rochester where he underwent an operation recently. Mr. Sanderson says that the Mayo Bros. Hospital is a wonderful place but that he is glad to be back in Macleod again.

The new Western War Cry has made its first appearance. It is No. 82 on the list of "War Crys" published by the Salvation Army in different parts of the world. The new youngster is attractive in its appearance and make-up and we wish for a long and prosperous career.

According to a local announcement wheat has gone up to \$3.15 per bushel and flour is due for a boost in sympathy with the price of wheat. In fact there was a rumour that before the week was out flour would be quoted at \$8.00 a bag, if not more.

H. W. Bright has received a wire from the secretary of the Tax Equalization Board saying that the Board intends to visit Macleod on Thursday, May 13. This Board was created at the last session of the legislature for the purpose of equalization of rural and urban taxation, and consists of two representatives from the Rural Municipal Districts Association, two from the Union of Urban Municipalities and one appointed by the government.

Reports regarding seeding operations that had reached this office up to Saturday night are as follows: J. M. Henry has 200 acres in; C. Black, 105; Mrs. E. Rands, 70; Mrs. Zoeteman, 300; H. Rands, 200; C. Brewster, 300; Shields Bros., 150; Alex McDonald, 160; F. Thompson, 60; Walsh Bros., 140; P. Chugg, 200; J. D. Genilas, 160; Stewart Bros., 500; and D. G. Grier informs us that Grier Bros. have in about 400 acres of wheat and will have finished seeding within a few days.
